Safety Coordinator: Visibility is a key element in safe riding and there are ways to accessorize your bike so it can be seen better. Reflective stuff can be added to the bike, put on saddlebags, etc. For daytime, consider a small LED brakelight that will go on a license plate frame. Also, two more lights can be mounted on forks for added visibility. Also, with the onset of warmer weather, remember to hydrate. Consider putting your Camelbak somewhere other than on your back.

- e. **Road Captain:** Today's ride is a scavenger hunt. You and your riding partner will get 12 pictures of San Diego landmarks. Figure out what they are, where they are, and figure out a route to maximize the number of places you can get to. Take a picture at each stop and make

sure at least one team member is in the picture. There's a 3 hour time limit and the end point is Carol K.'s office.
